## • EMPLOYMENT HISTORY

**Frontend Developer Intern at Fabelio.com, Jakarta**

June 2021 — September 2021

In this internship I am responsible for :

1. Adapt and implement the latest technical trends in web applications to support and improve product quality.
2. Responsible for product compatibility across devices.
3. Develop new user-facing features using React.js.
4. Building reusable components and front-end libraries for future use.
5. Estimating the effort required to develop and implement.
6. Develop a software test to ensure the properness and safety of application
7. Communicating with UI/UX to make further improvements.
8. Collaborate with cross functional team such as Stakeholder , Scrum Master , Project Manager, SEO Team, UI/UX Team and many.
9. Maintain, improve Fabelio.com's core web, and performance to improve site speed, conversation rate, total good URLs, and search engine rankings.

Collaboration with scrum workflow that had 2 weeks sprint timeline, the team consist 6 people, daily standup every day, sprint review and sprint planning at the end of each sprint. Created and wrote PR (Pull Request) for the team to review. Had a responsibility to review other team member's PR and code before merging into QA and main branches.

Tech stacks: React.js, Next.js, Redux, Material-UI, CSS-in-JS Emotion, Tailwind CSS.

**Frontend Web Designer at Freelance, Depok**
